“ Anna was the reason for the ESD careers of so many people. She hired me at 22 and was like a mom to me for my entire career. She taught me everything about caring for people needing a hand in life. She had the biggest heart and like so many other ESD people she gave me a chance and I owe so much to her. She is loved by many and will always hold a special place in my heart. My condolences to her family. You are safe with Jesus my friend.
