“ May the love, joy and laughter Betty gave so lovingly help guide you through this difficult time. Her light lives within each of our hearts. Thank you Betty for being the best Bonus Mom a girl could hope for. Thank you for inspiring me to be a fun and playful Grandma like you were! You helped bring Dad and I back together again. I'll forever be grateful to you. Hope those Reindeer were gentle with you. Until next time, rest in joy and peace. We know you're watching over us!

“ *My condolences to you all from me and my mom Gail. Betty was my aunt and my mom's sister and I know she was very cherished... she was such a kind person. I still remember her laughing so much at the family reunion back in 95 over grandma Dorothy's dancing flower. If I remember correctly it had went off while she was in her room and it scared her.*
