“ This was my maternal grandfather. I am not too sure of his life in Washington but he did have a daughter named Jennifer and two grandchildren. I wish this was on his obituary. I am sorry I lost touch with him but I am glad he did not die alone. If you could please let me know how he died I would be very grateful.

“ My name is Jennifer Michaels and I am his REAL biological daughter that lived with him for 18 years. He has two biological grand daughters Ashlynn and Courtney! We were not told of his death as he lived far from us and he did not have contact with us for many years now! We are saddened to find out about this in [ancestery.com](#) but we did. His grand daughters wish someone would have told us! If anyone here can contact me about him I would appreciate it! I am glad he had a companion and he did not die alone!

“ My blessings to johns family. I knew him as a good hearted man..this is sad news on veterans day. As so many of his stories embraced his time of service. Thank you for his honor.
