“ *Judy, you both inspired and made me laugh. I looked forward to seeing you in class , working hard together, and making fun of ourselves. I'll miss how you tried to hide behind us in the back of class. You have always been kind and welcoming to all. You are a wonderful woman who touched so many hearts, and will be missed more than you could have imagined. My love goes out to your family. You were a bright light and our community is heartbroken.*
