“ Nephew, You made me see life so differently and appreciate how fragile life really is.
I could never thank you enough for what you taught me!
You were never able to run and play. even get to eat different kinds of food. you lived your life with a smile on your face. Made me look at my life differently. hard to complain about anything, like its so irrelevant. your so strong and such a beautiful person Kolten.
I’m going to miss you so much! i’m just happy that i got to visit you last year of your life!
I only wish it had been sooner and more frequently.
I know your running and playing now son. Give everyone in heaven a hug for me baby!
Until we meet again.
Aunty Kelli
