“ I am sorry it has taken so long to remember my cousin Stanley. Stanley is from my mother’s side of the family. My family, as far as I can remember, did not include a lot of visits to the US Fretenburg’s, and since my parents and grandparents are gone, I can take the time for remembrances. I have been doing genealogy for many, many years and I wish I had been in touch with Stanley because we shared family, hobbies and music. The Fretenburg’s’ were a very musical family and I am proud to have been part of the Fretenburg name.
