“ *Uncle Teddy some of my earliest memories have you in them. Going out to grandma's and picking apples, living out on the property with you, digging up oysters and the very first time I ever drove a car was with you. You have always been there for me and I am so thankful for the time I have spent with you and grateful that my children got to meet you and I am able to share with them stories of my favorite uncle.*

“ *I am deeply saddened by this loss for all of us. I find comfort in thoughts of you healthy and whole on the other side. I'll be forever grateful for the good times we had, thanks for confirming my anger issues were purely genetic and not circumstantial..lol. These last few years have helped heal a part of me for that I thank you. Sending you with all my love and respect. Happy hunting on that side Dad.*
