

Stillwaters Cremation Cemetery at Greenacres Memorial Park

Stillwaters Cremation Cemetery provides a beautiful and peaceful location designed specifically as a perpetual resting place for cremated remains.

Stillwaters' quiet wooded setting, cascading stone waterfall, calm reflecting pond, stone paths and meandering streams all create a sense of comfort and peace.

"I chose Stillwaters for my wife because of the very peaceful feeling you get from the sound of the waterfall and streams running through it, as well as the stonework and trees. It is completely different than any cemetery I have ever seen. This is where I'd want to be."

The Importance Of Place

When we have lost a loved one, it is natural to desire a place where we feel we can be close to that person. A place to reflect, remember, and honor someone important in our life. A cemetery with a permanent marker has met that need for those choosing burial. But for families choosing cremation, too often there has not been a special place for permanent memorialization.

That is why we at Moles Family Funeral Homes and Crematory – Greenacres Memorial Park have created Stillwaters Cremation Cemetery. We understand and honor the importance of a beautiful and peaceful place for reflection and remembrance. We also understand

that creating and placing a permanent memorial to a loved one is an act of devotion and respect.
